

SATELLITE SOLUTIONS (NANO)

Official Representative

Infinite Security Solutions (ISS), is a leading Business Risk Management and Security Consultancy which has built up a strong and close relationship with a number of Technical Partners so as to provide our clients with a comprehensive range of appropriate, “fit-for-purpose” equipment and systems in order to deliver effective and customised security solutions to meet their needs and objectives.

One of our Specialist Products is High Performance Nanosatellites Technology Pioneer and Long Term Proven in Space Applications: High Resolution Earth Observation Secure and Private Telecom (Data, Images, Video, IoT)

Standard Satellite solutions are costly to design, manufacture and deploy, and once deployed it is difficult to up grade the technology. Like wise Micro Satellites are more effective but also have similar challenges. Nanosatellites address all the challenges of the Standard and Micro Satellites, and as are now the future of the low orbit space satellite.

To offer the most advanced Nanosatellites (<10kg) with 5m / 3m or 1m resolution for Earth Imaging and fastest and secure Telecommunication for individuals, governments and private use and as a shared service for:

- Borders Control
- Maritime Security Search and Rescue
- Space Entertainment Space
- Artistic Content
- Property Intrusion Alert
- Environmental Monitoring
- High Precision Meteorology
- Documenting Space Tourism
- Agricultural Yield Improvement
- Disaster Relief Operation Support
- Industrial and Logistic Intelligence
- Sensitive Data Collection and Transfer
- and more...

The nanosatellites are available for individuals and organizations of any country, in 3 major models and with any further customization required by the final user or by business application partners. We launch individually or in constellations and the operations is done by the final users or through dedicated service and support.
